Kiernan:

Thanks. My mother is having heart surgery for an aortic replacement. She doesn't want me to come because I got her a pendant alert, sophisticated voice contacts in every room, a phone contact Lyft and have pushed to suspend her driving. However, this is America. She is 88. Had her car roll into a busy street. Pushed out a wall in the garage, damaged a car in a parking lot and has fallen 3 times. I have to turn her in to DMV, anonymously if she refuses Lyft.

I received the BCCA letter re: Reconsideration under Roberts Rules and City guidelines onto the next agenda by James and Claudia. You and Tracy can not call for it.

I would trust Krumm and Morris for the correct procedure--nor much.

Mossis by declaring an OML and re-threatening it a second time at the meeting has to be going for malicious firing and saving face.

Tracy was attacked with intent. Morris was very badly shaken. I've never seen him like that. Brok wasn't there? Mays should look at the 50 acres. I showed him Dave called 50 acres a tiny incidental use along with antennas in the El Dorado Transfer Zone. You and I discussed an incident. Shea, Krumm, Noyola, Brok, Tami, Nicholson, Hansen are habitual liars.

I was annoyed by Ross Johnson and Tami 3 times, Mon and Tuesday. Bryce doesn't know how to file an HR report but is looking at it.

1

I have not and won't sue the city--albeit this doesn't rise to it. I will rattle Bryce, Morris, Tami, Shea, Brok. Morris, to appear at the BCCA is desperate.

I have never owned weapons. Reluctantly and confidentially I have gone shooting with Joseph as a pure social interaction. The back door to the chamber is used. I never checked it for a guard by the gazebo. Claudia and Rod use it. Anyone could place a weapon in a trash can. I could hide a weapon behind a large belt buckle that I am not asked to remove. The guard standing in the hall by the clock facing the door would be shot first. I am not suggesting an occurrence, just pointing out absurdities. For myself, I'd weigh a bug sweep weekly.

I will provide the Council with info on the Hangar, Tract 350, the Highway, revising the Parking. I have a one hour video on youtube Neal Siniakin Bypass 2 that Rod blocked. I did insult Bruce and him in it.

James is incorrect.

1. 5000 sf lots are net 7 per acre. R-3 and C-2 are 8 to 17 per acre with a CUP. Construction costs and retail land make low cost housing a dream. Giroux was selling half a house at full price retail. The money is in the land in those proposals. Grant's friend will be good in 10 years--sharp guy. Grant is good. Rob stayed out--wisely.

They have to get rid of you. It escalated. Woodbury, Duncan, Miller, Johnson (made 172k/year on the monrail with Bruce, Broadbent over 2 mil, Cam 2 mil and others, the guy who specifically attacked Tracy. I saw her face.

You don't absolutely need a Special Council. Morris is in breach, as is Krumm and Noyola. The council has the right to review staff. Legal guidance is needed. I watched James and Claudia and will on several matters. James sounds like Grant.

I am going to remove staff at an agreed rate. Tami opened one door. Shea another huge door. Brok on 350, Morris, Bryce will by next week.

Everyone has too much work in this to be sabotaged by nitwits.

[REDACTED]

Thank you for the information regarding the appraisal. I agree it should have been included in the packet information for consideration of the and discussion of the RFP. As you know, the vote by the Council was to hold the RFP in abeyance until after the first of the year. I will be looking into the RFP with additional scrutiny based on what has already come to light and the potentially specious allegation of an Open Meeting Law violation to reverse an action of the City Council to amend the RFP.

I am sorry to hear your mother is ill. I understand that will weigh on your time. I will be working to get my thoughts together before the end of the year on the RFP. Once I have had an opportunity to do so I will contact you.

Best Regards,
Kiernan

Kiernan: Part 1 of PI request

I havent looked deeply into this. My mother is ill.

Wise to postpone. Whats the hurry?

Owner builder.
Smaller parcels.
R-7. Or R 10
Consideration of added lots via variaces. Laksa got 9 free lots or so.
Use of easement.
Need of easement.
Appeasement, options on design.
Appraisal-- it will pass 1 year before its sold. The appraisal is from Feb. It has to be a year old or less.
Interest.
Re appraisal. Steve did add that after denying its in the Charter--as did Warren after my 2 phone conversations and email you received.
Who is Anderson the appraiser?

I feel I am a nuisance. A millstone.

Why werent you given the appraisal. How hard was it to let me see it with a run around.

As Tracy said, its a huge drop.

Millions left on the table. Bad planning. Gross incompetence bordering on deception, again.
