# TANYA VECE FOR CITY COUNCIL

***No more dirty decisions in City Hall!***

The blame game between the current and former city council is a distraction from the real issues. Things need to change. We need someone who is independent of any special interest groups to help inspire and scale change! **Let me stand up for you!**

## Protect Our History

- 1-year moratorium on all residential and commercial demolition requests
- All new developments within the Charter should meet the aesthetics of the tree and state streets
- SLOW growth - say no to "cookie cutter" homes

## Innovative Ideas

- Lower utility bills by 25% for qualifying seniors, single parents, and low-income families. Give the same discount to businesses that have at least 60% of their workforce living within our community
- Bring back the Civil War Reenactment as a city-sponsored civics event for children

## Communication Is Key

- Allow the press to do its job without interference or intimidation
- A healthy working environment at City Hall benefits the citizens and reflects a sense of goodwill among the community
- I'll always respond to phone calls / emails

✓ *Yes to off-road vehicles on city streets*

✓ *Yes to a new pool, but not at 40 million dollars*

**I believe in a better future for Boulder City!**
